

PROCART III™

Mobile Treatment Console

PROCART III MOBILE TREATMENT CONSOLE INTRODUCES THE LATEST ADVANCEMENTS IN SELF-CONTAINED DELIVERY SYSTEMS TECHNOLOGY INTO THE PROGRESSIVE DENTAL PRACTICE. PROCART III JOINS THE GROWING FAMILY OF OTHER SUCCESSFUL SELF-CONTAINED PRODUCTS FROM DNTLWORKS EQUIPMENT CORPORATION.

Where can you implement the new ProCart III? Increase your existing office's productivity by expanding into unused areas. Open a satellite office. For new dentists, open your first practice without costly plumbing and electrical wiring expenses.

ProCart III is perfectly suited for other dental treatment locations. Expand your vision to include hospitals, nursing homes, military installations, correctional facilities, community health centers, and other public health organizations.

Advanced Features

- Built-in amalgam separator.
- Quick access to internal compartments.
- Rounded corners and edges to make cleaning easier.
- Locking rear casters.
- Superior sound reduction.

PROCART III™

Mobile Treatment Console
